SB854 Requirements

In accordance with SB 854, all contractors and subcontractors must be registered with the Department of Industrial Relations (DIR) in order to be awarded contracts for public works projects. DIR has extensive information regarding public works requirements on its Public Works website (<http://www.dir.ca.gov/Public-Works/Contractors.html>).

Effective July 1, 2017, the DIR has established a *small projects exemption* for contractors who work exclusively on small public works projects. The small project exemption applies for all public works that do not exceed:

\$25,000 for new construction, alteration, installation, demolition, or repair
\$15,000 for maintenance

Contractors that qualify for the small project exemption are not required to register as a public work contractor or file electronic certified payroll records for those projects. Contractors are however, still required to maintain certified payroll records on a continuous basis, and must provide them to the DIR upon request.
